Why Choose Us?

Yücelen Group of Companies was founded 60 years ago by Hamdi Yücel Gürsoy. He still is a pioneer in healthcare services with its quality and growth-oriented vision with more than 1000 employees today with **3 hospitals, a hotel, a dialysis centre, a school, two local clinics and one travel agency all around Muğla.** **Your health is our priority at Yücelen Group of Companies.** The main idea of our motivation is achieving new fashion healthcare services with qualified doctors and staff. Yücelen Hospitals are worldwide well-known healthcare institutions that provide healthcare services in all medical and surgical branches. As Yücelen Health Group, each of our hospital has been certified by the Ministry of Health of the Republic of Turkey and has taken their place among the accredited institutions by meeting all the necessary conditions. Additionally, Yücelen Health Group has the certificate of TS ISO 10002, which certifies quality standards of customer satisfaction management system.

GASTRIC SURGERY

We offer you four different kinds of Gastric Surgery that will help you to lose weight and get a healthier and firmer body.

GASTRIC BYPASS

Gastric bypass surgery is a surgical procedure whereby the size of the patient's stomach is reduced. The upper part of the stomach is attached and it is immediately diverting to the small intestine, so the food will go only to the upper section of the stomach.

GASTRIC SLEEVE

Gastric sleeve operation is one of the most popular weight loss procedures, it is a simple and extremely safe surgery, in which a portion of the stomach is removed, that is about 70% of its original size.

GASTRIC BOTOX

Gastric botox is one of the latest and safest non-surgical solutions for losing weight and getting in shape. It works the same way as Botox works in the face area, when Botox get injected into the stomach, and it relaxes the stomach muscles while significantly reducing stomach contractions.

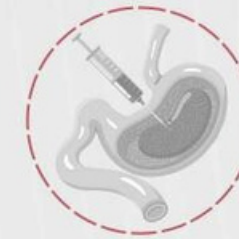

Sleeve

Balloon

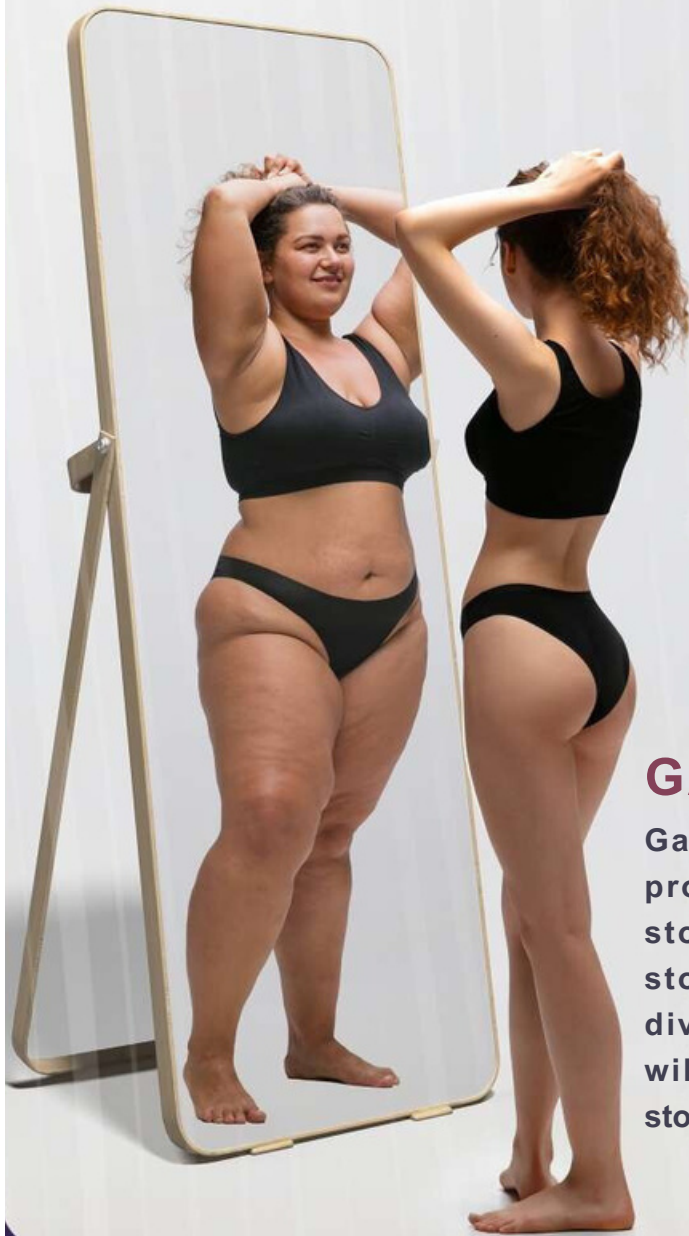

Bypass

Botox

GASTRIC BALLOON

Gastric balloon operation is a non-surgical cosmetic procedure, aims to reduce the weight, by entering a balloon, reducing the amount of food eaten, that leads to weight loss.

EYE SURGERY

CATARACTS

Risk Factors

- Ageing
- Diabetes
- Excessive sunlight exposure
- Genetics
- Hypertension

As the people age their tendency to develop cataracts increases

Ophthalmology (Eye Diseases)
Muğla Yücelen Hospitals have brought together specialist physicians and advanced technology for the treatment of eye diseases. Diseases that occur in the eyes such as diseases that cause deterioration or complete loss of vision due to environmental, genetic or age may adversely affect the patient's life. Thanks to our specialized doctors, advanced examinations and technology, we provide services at international standards, in eye-related diseases such as eye infection, allergy, vision problems, orbital surgery and treatments in the field of pediatric eye diseases.
